## Shore to Have a Good Time

Four siblings, two brothers and two sisters, decided to head to the beach for their vacations. Each chose a separate destination and planned different activities and excursions. One swam with turtles, one with sharks, another with stingrays, and one with dolphins. Their trips cost from about \$3,000 to \$6,000. Use the clues to match the siblings with their destinations, their swimming excursions, and the costs of their vacations.

Stephen	Belinda	Garrett	Elena
Florida The Bahamas Perth, Australia Costa Rica	Florida The Bahamas Perth, Australia Costa Rica	Florida The Bahamas Perth, Australia Costa Rica	Florida The Bahamas Perth, Australia Costa Rica
dolphins stingrays turtles sharks	dolphins stingrays turtles sharks	dolphins stingrays turtles sharks	dolphins stingrays turtles sharks
\$3,000 \$4,000 \$5,000 \$6,000	\$3,000 \$4,000 \$5,000 \$6,000	\$3,000 \$4,000 \$5,000 \$6,000	\$3,000 \$4,000 \$5,000 \$6,000

### CLUES:

1. The Florida trip included swimming with stingrays and cost less than the trip to Australia.
2. Elena's vacation cost the most.
3. Stephen swam with turtles.
4. Belinda's vacation cost more than Stephen's and Garrett's.
5. The one who traveled to Australia swam with dolphins.
6. Garrett spent half as much on his vacation as one of his siblings, and he loved his trip to the Bahamas.
