## On the Hunt for Maggie O'Brady, Storybook Lady A Virtual Scavenger Hunt

#### INTRODUCTION

This **virtual field trip and scavenger hunt** is designed to be a fun and educational activity, one that may inspire students to **create their own Google Earth projects**. Incorporated into the project are videos and photographs that will enhance the experience and the learning. Critical reading skills are reinforced as students read and follow directions carefully. Cultural and geographical trivia will be presented as students gather information to complete the student handout. This journey **ends with a riddle to solve**.

You can find other virtual scavenger hunts at <u>Big Ideas for Little Scholars</u>. You might like to start by reading this short blog post.

#### You will need:

- this Google Earth Project link
- copies of the **student handout** (see pages that follow)

Complete this as a class together, or have students work independently or in pairs. The Google Earth app is not needed for the activity.

See the next page for **simple instructions and a few tips** to share with your students.

#### To Go on the Hunt

Instructions will guide students through the journey. A **Table of Contents** will be visible to them, but explain that they need to **advance one slide at a time by clicking on the right arrow** or using the arrow keys.

#### **Project Page**

If you exit the slideshow, you will land on the project page. To resume the hunt, simply click VIEW and then START SLIDESHOW or **find a play button at the top right to play the SLIDESHOW**. To make your own copy, click on the three buttons next to the project title (see far right photo below), and **MAKE A COPY**.

## A Few Tips

Students may need to **scroll down to see the complete text.** A text box will sometimes include photographs or videos. There may be more than one type of media on a slide; have students **click on the videos and pictures to enlarge** them.

The compass on Google Earth is important when using cardinal directions. Make sure students understand that they can **click on the compass to realign it** (red points north). The compass can be found in the bottom right corner of the map.

#### **Riddle and Conclusion**

Students may know the answer to the riddle or they might Google it! Once they have the answer, pass out the final clue ("Find Maggie" -page 7). When they've determined the password, share this link.

Comments? Questions? Click <u>here</u> to send a message.

I hope your students are inspired to create their own projects. Read more **HERE**.

Name:

# "On the Hunt for Maggie O'Brady, Storybook Lady" Virtual Scavenger Hunt

**DIRECTIONS:** As you retrace Maggie's trip via Google Earth, use the clues to

gather the information needed to complete the puzzles below.

FIRST STOP:	Storybook	Village	(Pentwater,	Michigan)

- 1. name of the theater at this bookstore
- 2. lake closest to the bookstore
- 3. the Great Lake that connects with #2
- 4. the name of the bug in a book

_ A	В	С	D	E	F	G	Н	I
								ı

**SECOND STOP:** 

- 5. park that is within walking distance from the hotel (about 3 blocks)
- 6. Maggie's room was on the \_\_\_\_ floor.
- 7. One book on a lovely tray in her room gave Maggie \_\_\_\_\_\_ to be creative.

A	В	С	D	Е	F_

THIRD STOP: Biblio Toyen in the city of

- 8. section number near computer station in the library (write as a word)
- 9. type of exploration at the Fram
- 10. sea between Oslo and London
